Compact wired accessory connector

RM780 RSM

LOUD AND CLEAR AUDIO

When pairing a RM780, RM760, or RM730 Remote Speaker Microphone with the R7 radio, the enhanced single input noise cancelling feature will suppress the background noise for clearer communication.

Innovative audio technology enables you to hear and be heard over crowd noise, machinery and blaring sirens. Motorola Solutions' Wind and Water Shielding technology ensures audio is loud and clear.

Rugged and dependable, the RM Series Remote Speaker Microphones are IP68 rated for use in harsh environments and weather. The RM780 and RM760 also meet the work-when-wet requirements having enhanced water drainage and top quality materials to ensure you get the best audio experience.

INTELLIGENT AUDIO: YOUR CALLS, ALWAYS AT THE PERFECT VOLUME

Set your volume once and depend on your accessory to listen for changes in background noise, adjusting the volume automatically.

MOTOTRBO R7 RADIO ACCESSORIES

REMOTE SPEAKER MICROPHONE WITH LARGE FRONT PTT

The NS750 IMPRES Remote Speaker Microphone (RSM) is built for frontline workers in tough, loud, mission critical environments. It is built with windporting microphones that cancel the mechanical effects that wind has on the microphone. With the additional advantage of an omnidirectional microphone, it is able to capture noise from every direction. Smart audio switching allows audio to be easily switched between the RSM audio and the secondary earpiece or headset.

COMPATIBILITY		ACCESSORY		FEATURES								
PORTABLE RADIOS	DESCRIPTION	PART NUMBER	IMPRES	INTELLIGENT AUDIO*	WINDPORTING, NOISE-CANCELLING OR DUAL MIC. NOISE SUPPRESSION	AUDIO SWITCHING KNOB	PROGRAMMABLE BUTTON	AUDIO JACK (3.5 MM)	IP RATING	HAZLOC CAPABLE**	DIMENSIONS (MM) H X W X D RSM Head Only	CABLE LENGTH

LARGE, TEXTURED, FRONT AND SIDE PUSH-TO TALK BUTTONS

In high stress situations, communication with the NS750 is seamless; this RSM has both a traditional side PTT button and a large front-facing PTT button, so you don't have to fumble with your device to deliver key information. And, if you're in a low-visibility environment, the NS750's high impact green detailing makes the device easy to see.

INTELLIGENT AUDIO: YOUR CALLS, ALWAYS AT THE PERFECT VOLUME

Set your volume once and depend on your accessory to listen for changes in background noise, adjusting the volume automatically.

SMART AUDIO SWITCHING

Eliminate toggling difficulties among multiple accessories with the NS750's smart audio switching functionality, located on an easily accessible button to save you both time and effort.

COLOUR IDENTIFICATION LABELS

Further organise your devices across your workforce with the NS750's colour identification labels, making it easier to separate and understand various teams, functions or roles.

* MOTOTRBO R7 IMPRES batteries include a self-calibration feature when used with IMPRES Single-Unit Charger and IMPRES 2 Multi-Unit Fast Charger (SW ver V2.00 and above) listed under Charging Solutions for MOTOTRBO R7.

** HAZLOC details: For more information on which accessories are approved by Underwriters' Laboratory (UL) with certain MOTOTRBO models, please consult the manual provided with each UL- approved MOTOTRBO portable.

CHARGING SOLUTIONS

Choose from a variety of solutions including single-unit, multi-unit, travel and in-vehicle chargers and be confident your radio is charged and ready to go the moment you need it. Charge a single battery or while it is attached to your R7 radio.

COMPATIBILITY		ACCESSORY			FEATURES				
PORTABLE RADIOS	DESCRIPTION	PART NUMBER	IMPRES	CHEMISTRY	POWER SOURCE	DIMENSIONS (MM) H X L X D	NUMBER OF POCKETS		
 R7		IMPRES Single-Unit Charger, EURO Plug	PMPN4577A	•	Li-Ion, NiMH	240 VAC	51 x 88 x 94	1	
		IMPRES Single-Unit Charger, UK Plug	PMPN4572A	•	Li-Ion, NiMH	240 VAC	51 x 88 x 94	1	
		IMPRES Single-Unit Charger, US Plug	PMPN4576A	•	Li-Ion, NiMH	120 VAC	51 x 88 x 94	1	

WHAT IS IMPRES SELF-CALIBRATION?

IMPRES batteries with self calibration feature can be identified through this logo on the battery label. These batteries do not require long hours of IMPRES calibration or recondition process, when charged with:

- IMPRES Single Unit Charger
- IMPRES 2 Multi Unit Charger (SW ver V2.00* and above)

* If the R7 IMPRES battery is initially inserted into the charger with older software, it will begin the initialization process with a solid yellow indication. Do not remove the battery from the charger until the charger indicates solid green. This process may take up to 8 hours.

HOW DO IMPRES BATTERIES AND CHARGERS SAVE MONEY?

They reduce the number of spare batteries you would need to buy and increase the time before you need replacements. Only IMPRES batteries can be charged 150 additional times versus a standard battery – a 43% increase in charge cycles. If you charge radios two to three times a week, you will get more than an extra year out of every IMPRES battery.

ONLY IMPRES BATTERIES CAN BE CHARGED 150 TIMES MORE THAN STANDARD BATTERIES AND LAST 43% LONGER

PORTABLE RADIOS	DESCRIPTION	PART NUMBER
 R7	IMPRES Battery Fleet Management License Key, EMEA	HKVN4037
	IMPRES Battery Fleet Management Software for EMEA is available to download from Motorola Solutions' website on the IMPRES Battery Management Application page.	n/a

IMPRES BATTERY MANAGEMENT TOOLS

With the unique IMPRES Battery Fleet Management system, you can efficiently manage your batteries with real-time data not available with other manufacturers' batteries. Our easy-to-use software application shows you if there is enough capacity for a full shift, alert you to low capacity batteries, prevent downtime and eliminate disposing of batteries prematurely.
